PUBLISHERS'
PREFACE.

HN presenting the designs on the following pages, we think few words are needed from us. They speak for themselves. The high commendation and very fair sales, considering the comparatively restricted circle interested in such works, which our former Book of Scrolls and Ornaments, by Mr. J. H. Loudolphe, has met, have encouraged us to still further efforts to meet the wants of the various branches of painting, designing, and decorative work. The present work covers a very wide field, embracing those forms of scrolls which have for many years been favorites, as well as many new designs. This book is entirely different from our former one, which was perhaps of most use to car painters, having been adopted in several of the largest and most celebrated car-shops.

Our present volume contains some two hundred different designs and ornaments, adapted to a multitude of different purposes.

We have aimed to give those which should be most valuable and beautiful in actual use, rather than such as would look best in print. We believe our friends will find them just the thing for practical application.

"TIME IS MONEY."

THE EXPERT CALCULATOR. QUICK

A complete compendium of short-cuts in figures and useful business information.

— EXAMPLE. —

To Multiply a number of two figures, say square 84: Make the multiplier the nearest round number (80) and increase the multiplicand by the same amount as you have reduced the multiplier ($84 + 4 = 88$) multiply the two together and add the square of the number added and subtracted (4); we have therefore $88 \times 80 + (4 \times 4) + 7040 + 16 = 7056$. — *All this can be done mentally, which is its great advantage.*

This is contained in the EXPERT CALCULATOR, a book just published which gives many methods of shortening the work in addition, multiplication, percentage (general), interest, marking selling prices, averaging accounts, price marking, brick and masonry measurement, measurement of live cattle, arithmetical trick arithmetic, etc., etc. 200 pages, size 5 x 2 3/4, bound in leather, A4s. and TRICK ARITHMETIC, etc., etc. 200 pages, size 5 x 2 3/4, bound in leather, A4s. and indexed.

"*Ignorantia legis neminem excusat.*"
